

New Ciratec Orbital Wrappers Automatically Speed Production

ECC Series Is Easy To Use, Easy To Afford

Protect your valuable bulky, flat, loose, light and heavy products during packaging and transport with Ciratec's ECC Series orbital wrappers. These rugged, automatic and semi-automatic stretch wrappers replace manual strapping, taping and tying with a hands-off, low-maintenance operation that speeds production, removes liability and cuts costs.

- 20-, 36- and 50-inch inner diameters accommodate virtually anything
- Dual-roll designs double wrapping rates and cut film reload rates in half
- Counterbalance secures the product for smooth, quiet operation
- Vertical and horizontal gravity rollers ensure smooth feed and centering
- On the fly adjustments speed product changeover
- Auto-stop safety systems protect operators
- Adjustable legs adapt to uneven flooring
- Hydraulic load centering, end of stock sensing, single film rolls and conveyors are optional

Automate From \$430.00/month with the *Rent-A-Wrap!* Program

Now you can automate your packaging operation without buying a single machine. With the *Rent-A-Wrap!* program, you get a rugged Ciratec orbital wrapper fully installed for as little as \$430.00/month. After 60 days, apply 100% of your rent towards purchase, return the machine or keep on renting for as long as you like. Call 908.995.7002 for details.
